

Dear Friend,

Your local Light Plant would like to thank you again for participating in the Shave the Peak voluntary demand response program. Summer, with its hot weather, is definitely here, and this program is in full swing. To get a refresher on what this program is all about or to find answers to frequently asked question please go to [Shave-The-Peak](#) or follow us on Twitter [@MLPWellesley](#) and you will find very helpful resources. Remember that on peak days, the New England Independent System Operator (ISO-NE) turns on the oldest, most expensive, and dirtiest generating plants to meet the high demand in all of New England.

We are also sending you this email to let you know that we need your help to **Shave the Peak** during the peak window from **3 - 7pm on Monday, July 20th**. Get ready to reduce electricity usage by turning up the thermostat a few degrees, making sure that electric vehicles or other electric devices are charged outside the peak window, and delaying laundry or dishwashing until after the peak.

Please let us know if you have any questions, and don't forget to share this message with friends and neighbors so they can join this effort too!

Your Local MLP Team
